## Blackboard 9.0: Course Roles

Course Roles may only be changed by a Blackboard Administrator or the Course Instructor.

### Teacher's Assistant:

The Teacher's Assistant has access to nearly everything in the Course. They may not change the roll of a user in the course, they may not modify passwords and they may not remove an instructor. Teaching Assistants will be able to enter the course before it is made available to students.

### Course Builder:

User is able to add content to the course through the Content Areas functions. This role is appropriate for a user who has limited responsibilities, but should not have access to the student grades. Course Builders will be able to enter the course before it is made available to students.

Course Builders have access to the following areas of the Control Panel:

Course Information	Settings
Course Documents	Import Course Cartridge
Assignments	Import Package
External Links	Tasks
Announcements	Course Copy
Course Calendar	Export Course
Contacts	List Users
Discussion Boards	Send Email
Enroll User	Remove Users from the Course
Digital Drop Box	Manage Groups
Manage Course Menu	Test Manager
Archive Course	Survey Manager
Collaboration	Pool Manager
Manage Tools	

### Grader:

User is able to access all areas under Assessments. A Grader would assist the Instructor in the creation, management, delivery, and grading of Assessments. A grader may also assist the Instructor with adding manual entries to the online Grade Center. Graders will not be able to enter the course until it is made available.

Graders have access to the following areas of the Control Panel:

Grade Center Views	Grade Center
Test Manager	Survey Manager
Digital Drop Box	Pool Manager
Announcements	Course Calendar
Tracking Reports	List/Modify Users – may not modify content
